

JOB TITLE: Kinaxis Solution Consultant

At Simbus, we bring Richard Branson's saying to life: "Train people well enough so they can leave, treat them well enough so they don't want to."

WHAT YOU'LL BRING:

- Bachelor's degree in engineering
- 3+ years of experience in implementation of Kinaxis Rapid Response.
- Certification of Solution Consultant Level 1/ Integration Consultant Level 1 or above in Kinaxis Rapid Response is a must.
- Good functional knowledge of supply chain planning is a must.

WHAT YOU'LL DO:

- Understand current challenges in supply chain planning with client and provides expert guidance on how to best implement and utilize Kinaxis RapidResponse Solutions to solve business requirements
- Work closely with Project team/Kinaxis Solution Architect to develop a business process design that leverages RapidResponse capabilities
- Configure the RapidResponse interface according to our customers distinct needs as defined within the Agile user stories and blueprint designs
- Resolve complex data and analytic configurations to ensure that the solution is producing the expected results
- Assist sales and pre-sales team to convert opportunity to wins by owning key activities like Technology Demonstrations, POCs, Proposals, SOW etc.
- Lead implementation, configurations, testing, training, knowledge transfer and documentation activities
- Deliver high quality client solutions that meet and exceed client expectations and are delivered on-time and on-budget

WHAT WE'LL OFFER YOU:

- An open transparent work culture with focus on employee delight.
- Opportunity to work on challenging Kinaxis projects.
- A strong process-oriented work environment using modern work tools to drive efficiencies inservice delivery.
- A work from home policy focused on optimum work life balance.
- Industry leading pay scale with benefits.
- A collaborative work culture with emphasis on learning and innovation.
- A clear growth path intended to achieve personal aspirations and goals.
