

**JOB TITLE:**  
**Kinaxis Solution Consultant**

**At Simbus, we bring Richard Branson's saying to life: "Train people well enough so they can leave, treat them well enough so they don't want to."**

**WHAT YOU'LL BRING:**

- Bachelor's degree in engineering
- 2-4 years of experience in project implementation of Kinaxis Maestro.
- Certification of Solution Consultant Level 1 or above in Kinaxis Maestro is a must.
- A good functional knowledge of supply chain planning processes is a must.
- A strong understanding of application development principles and methodologies.
- Experience in developing and maintaining technical documentation.
- Experience in providing technical support and troubleshooting for applications developed.

**WHAT YOU'LL DO:**

- Understand current challenges in supply chain planning with client and provide expert guidance on how to best implement it on Kinaxis Maestro Solutions.
- Work closely with Project team/Kinaxis Solution Architect to develop a business process design that leverages Kinaxis Maestro capabilities.
- Collaborate with cross-functional teams to analyze business requirements and develop solutions to meet those requirements.
- Design, build, and configure applications to meet business process and application requirements using Kinaxis.
- Resolve complex data and analytic configurations to ensure that the solution is producing the expected results.
- Lead implementation, configurations, testing, training, knowledge transfer and documentation activities.
- Get involved in Solution development and implementations of various modules like DP, SP, S&OP, Unit testing and End-to-End testing, documentation of results and troubleshoot issues with fixes for smooth UAT.
- Design test scripts for configuration testing, create user manual and train users on the capability.
- Provide technical support and troubleshooting for applications developed.

**WHAT WE'LL OFFER YOU:**

- An open transparent work culture with focus on employee delight.
- Opportunity to work on challenging Kinaxis projects.
- A strong process-oriented work environment using modern work tools to drive efficiency inservice delivery.
- A work from home policy focused on optimum work life balance.
- Industry leading pay scale with benefits.
- A collaborative work culture with emphasis on learning and innovation.
- A clear growth path intended to achieve personal aspirations and goals.
